

Position on COVID-19 Vaccination Certificates

On Friday, October 22nd, the NZ government released its new COVID-19 Protection Framework (Traffic Light System). When implemented, this new plan relies heavily on vaccinations and vaccination certificates. The revealing of this new plan has seen mixed reactions from the public as it will certainly impact all areas of life including church services. As a local church, Orewa Baptist recognises that Christ is head of the Church, and that Christians share a unique relationship with God and one another. One of the church's primary objectives is to maintain a culture of belonging and care and the Leadership Team at Orewa Baptist is committed to doing its best to maintain that culture of care and belonging.

There is a large vaccination target to meet before the new framework is implemented and we ask that you continue to pray for the Leadership Team as they seek God's wisdom on what course of action to take when the time comes to gather again. Thank you for your prayerful support.
